

LMB-120

铝门窗单头组角机

Corner Crimping Machine

[性能特点]

- 动力由液压系统控制，工作平稳可靠。
- 先进的机械传动系统，避免空转造成的能量浪费，使窗角连接更牢。
- 同步送料机构和调整便捷。
- 可配且双刃组角刀，适用范围更广，组角强度更高。

[Product Features]

- The power is controlled by the hydraulic system, working smoothly and reliably.
- Advanced mechanical transmission system, avoiding energy waste caused by idling, making the window corner connection stronger.
- Synchronous feeding mechanism and convenient adjustment.
- It is equipped with double-edged cornering knives, which has a wider application range and higher cornering strength.

技术参数 Technical Parameters

电源	Power supply	380V 50Hz
电机功率	Motor power	
额定油泵压力	Rated oil pump pressure	16MPa
电机转速	Motor rotational speed	1400r/min
加工铝型材规格	Profile processing specification	100-150mm
总组角压力	General pressure of corner combining	45kN
外形尺寸	Contour dimension	1850 × 1680 × 1210mm
重量	Weight
