

LY-150

铝门窗五金件冲床 Hardware punching machine for aluminum window and door

[性能特点]

- 用于平开铝门窗五金件安装孔槽的冲压（限20mm欧标C槽）。
- 动力采用气动脚踏控制。
- 五个工作位置，可完成平开扇料执手安装槽、通用水槽、切角以及传动器端头冲孔($\Phi 10$ 、 $\Phi 6$)的加工。

[Product Features]

- Used for hardware slot and hole punching of aluminum doors and doors.
- The driving is controlled by the pneumatic step value to make the work stable.
- The five working position can finish corner cutting and the driver cutting and punching processing.

④ 技术参数 Technical parameter

油压公称压力	Punch pressure	16kN
工位数	Workers	5
	Punch journey	30mm
	Die contour dimension	3410 × 2410 × 5100mm
气源压力	Air consumption pressure	0.6~0.8MPa
机床外形尺寸	Machine contour dimension	6100 × 4180 × 13210mm
重量	Weight	200kg
